**CNergy Room, Algoma's Water Tower Inn, Sault Ste Marie**

---

Board Members in attendance:

- Norman Mann – Chair
- Lynn Watson
- Blair MacKinnon
- Lorraine Aelick
- Sally Hagman
- Dan Marchisella
- Ron Rody
- Belinda Kistemaker
- Jocelyne Bishop
- Chris Patrie
- Luc Cyr

Board Members absent with regrets and required notice:

None

---

**1. Opening of Meeting**

The Board Chair, Norman Mann opened the meeting and welcomed Board Members and staff.

## **2. Opportunity for Declaration of Pecuniary Interest**

None declared.

## **3. Minutes**

By Resolution, the Board approved the minutes of the October 24, 2019, Regular Board Meeting as distributed.

## **4. Approval of Agenda**

By Resolution, the Board approved the agenda for the November 23, 2019 Regular Board Meeting, as amended.

Amended as follows:

- 6.2 Children's Services Update -- Remove
- 6.3 Housing Services Update -- Remove
- 6.4 Social Assistance Update -- Remove
- 6.5 Paramedic Services Update -- Remove

## **5. Correspondence**

### **5.1 MEDU – 2020 Budget Schedules**

The CAO informed the Board the funding announcement has been made in advance for 2020. There is a slight overall decrease to the allocation for 2020 with the only significant reduction occurring to the Expansion funding line.

Expansion funding is decreasing close to twenty percent more than expected. ADSAB has questioned the Ministry in this regard and a response has not yet been received.

## **6. Other Business**

### **6.1 ADSAB Financial Report, for the period ended September 30, 2019**

The CAO provided a walk-through of the Financial Report.

Discussion ensued. Questions were answered by the CAO.

By Resolution the Board approved the ADSAB Financial Report for the period ended September 30, 2019.

### **6.2 through 6.5 Removed**

### **6.6 Board Constitution and DSSAB Act**

The CAO provided background on the issue related to ADSAB being incorporated as a Non-Profit with Letters Patent. It was highlighted that although ADSAB has supplementary Letters Patent, there is no original Letters Patent. Legal has confirmed this and believes the Letters Patent was done to formalize a name change for the corporation. ADSAB is a statutory corporation created and governed by the District Social Services Administration Boards Act.

As part of this review process, it has been noted that the Board Constitution has several provisions that contravene the legislation. Legal has advised that the Constitution should be replaced by a General Procedural By-Law that meets the requirements of legislation and the provincially approved guidelines for DSSABs.

Discussion ensued and questions were answered by the CAO.

A General Procedural By-Law will be developed and brought back to the Board in January/February of 2020 for consideration.

### **6.7 TWOMO Representative**

The CAO advised the Board of the resignation of Board Member, Gabriel Tremblay due to health reasons. The Board, having the

authority to appoint a replacement by nomination and resolution, chose to appoint the person with the second largest number of votes from the election.

By Resolution the Board appointed Harry Stewart as the TWOMO representative to fill the current vacancy for the remainder of this term.

## **7. Open Question and Answer**

The Board Chair, Norman Mann, thanked the Board for their work and the ADSAB staff for their guidance throughout the year.

## **8. In Camera Session**

8.1 Westwind Shores – Commercial Section – Tender Results

8.2 St. Joseph Island Housing Project - Update

8.3 Wawa Housing Project - Update

8.4 Pay Equity – Unionized Staff

8.5 Collective Agreement

8.6 Personnel Issues

## **9. Adjournment**

By Resolution, the Regular Board Meeting of November 23, 2019 was adjourned.

The next Regular Board Meeting is scheduled for January 23, 2020 at 5:00 p.m. in the Main Board Room, Head Office, Little Rapids.

Marva Griffiths – Extendicare

Debbie Nelley – FJ Davey Home

Marcia Chindamo – Progressive Training College

7.2

Item	Description	Lead
<p><b>Introductions</b></p> <p><b>Recap of previous discussions</b></p>	<p>Review of Minutes – Approved as posted.</p>	
<p><b>Updates</b></p>	<p>Addition to agenda - GPA training for Personal support workers</p> <p>Marilyn provided an update of a grandfathering ability. Internationally education health care (nursing and midwife) workers can grandfather into the PSW role. There is a \$250 fee and application with resume to be submitted and they are eligible to work as a PSW. This program is being supported by Health Force Ontario. There will be an upcoming information session. Marilyn is going to send out the step by step instructions to local agencies and is attached to these minutes</p> <p>Sault College will host an information session if wanted.</p> <p>Looking for suggestion of any support that could be provided to help pay the \$250 fee as it may be a hardship for those wanting to apply. Marilyn will reach out for information about the length of the international education process and what time of proof (certificate) they receive for proof of qualifications. There is also a \$150 membership fee for Personal Support Workers.</p> <p> <a href="#">OntHealth-HFO-OP SWA Handout.pdf</a></p> <p>Suzanne provided an update on HCC - Within the community we have a workload capacity of 300 patients waiting for Personal Support services. Close to 200 of those patients are currently receiving some services and just waiting for availability of services for their increased needs. Our highest needs are always reviewed and adjusted on the waitlist and provided with services as available first.</p> <p>Michel provided the group with information about the HCC capacity. Due to the decrease in use of PSW services because of PSW workers capacity issues these are funds left that have not been used for those services. There is a request for the ministry to use those funds to enhance PSW education. Phara is accepting application for those who would like to use that funding for PSW staff and education enhancement. Michel will resend the email that went out from Phara with all the information. Bev said there was an excellent Q&amp;A section in the email that has great information for all to read.</p> <p> <a href="#">PSW Workforce Development Fundi</a></p>	ALL

	<p>Paul provided an update about a meeting held at city hall. The meeting was about developing funding and resources for the PSW workforce. The indigenous community has a lot of interest in the program. Paul will speak with Lori at Sault College and other partner to work on planning. Immigration pilot program is still under way and Sault Ste. Marie is the only community that had launched in Ontario, with more Ontario community to follow in the coming months. The pilot will bring in 100 applicants per year and there are already 5 people working. Future SSM has a social equity program. They are working with candidates in the hospitality fields and provide them with training, transportation, uniforms etc. When screening them, they look to see if the candidates are a better fit for another job program like construction, health care etc. They are looking at a concept for including dietary aids and housekeeping for LTC and dispatchers for local police. Paul would like to invite the social equity program to come speak to our group.</p>	
<p><b>Key initiatives</b></p>	<p>Jonathan provided Agero with the all the information our group has put together for Agero staff. They have a meeting with the Ministry of Training and Service Canada and will have dates/time our group can meet with Agero staff. They are going to have 2 groups of lay offs and would like to meet prior to those. Jonathan will be meeting with them next week and will set up dates.</p> <p>Lori provided information that the next scheduled PSW course at Sault College is in May but there is flexibility to program dates. It will be important to have the information about the time the layoff will happen to the time Unemployment starts. This will help with the information of applying for the second career funding.</p> <p>Suzanne added to the agenda and spoke about GPA (Gentle Persuasive Approaches) with Personal Support workers. There are concerns noticed within HCC about the personal support workers. Issues with communication with patients and how personal support workers deal with patients with behaviours/personalities issues.</p> <p>The NE LHIN offered GPA training to PSW providers and had about 65%-70% completion rate to help with these type of situations.</p> <p>The group discusses that GPA and Crisis Intervention training is completed in the PSW programs. It is a great program to update and offer extended training. There is always the need to reoffer this training annually to keep everyone current and updated in the use of these skills.</p> <p>Suggestion that the group help promote and find funding for this training to help with retention of staff by feeling more confident with their role.</p>	<p>ALL</p>

	<p>Suggestion made to look at the Ontario Dementia Strategy for funding and if the GPA has another level of training to help build on the education or if a refresher course is available. Also to look at having a member of PSW Providers attend a higher level of training so they can in turn train their local staff annually or attend home visits that their training may help with and providing coaching to the PSW workers.</p>	<p>ALL</p> <p>Discussion pertaining to the:</p> <ul style="list-style-type: none"> <li>• Format</li> </ul> <p>Format of current meetings is working well for the group. Group feels the monthly meetings will help keep the momentum of the group.</p> <ul style="list-style-type: none"> <li>• Mandate</li> </ul> <p>Group reviewed ideas for the Mandate and come up with  <i>“Community partners collaborating to invest in our local Personal Support Workers. Through the promotion of the career, talent development and support of the current PSW workforce.”</i></p> <ul style="list-style-type: none"> <li>• Representation</li> </ul> <p>We would like to have member reach out to look for representation from other community health care members. Other LTC homes, Red Cross, March of Dimes etc.  Finn home and Sault Area hospital will be doubling bed sizes in the next couple years and will need the PSW support in these areas.</p> <p>Suggestion that we send out the request for representation to the community and it should come from someone other than the LHIN. Possibility to have the City of SSM send out the request. We can work together as a group to set up the email and have Paul send it out. Group will also look at the personal connections they have within the community to look for members for the group.</p> <p>Lindsay will pull the original email and contact information to build off.</p> <p> PSW Workforce Invite Email.docx</p>
--	---	---

	<p>Action items for group;          Work on email for Paul to send          Look for membership          Think about ideas for group decision making</p>	
<p><b>Next Steps</b></p>	<p>We will continue to build on this attached Terms of Reference.</p>  <p>Committee Terms of Reference.doc</p>	<p>ALL</p>

Next Meeting – February 21, 2019 LHIN Superior Room

7.3

**LA CORPORATION DU CANTON DE DUBREUILVILLE**  
**AVIS DE DEMANDE DE CONSENTEMENT (ET RÉUNION PUBLIQUE)**

**VEUILLEZ NOTER** que la Corporation du Canton de Dubreuilville a reçu une demande d'autorisation de séparation en vertu du paragraphe 53 (1) de la *Loi sur l'aménagement du territoire, L.R.O. 1990* pour les terrains dont la désignation municipale est 21, rue des Pins, comme le montre la carte ci-dessous. La Corporation du Canton de Dubreuilville tiendra une réunion publique le **mercredi 26 février 2020** à la salle du conseil du Canton de Dubreuilville, 23, rue Pins, Dubreuilville, ON à **18 h 30** pour discuter de la proposition.

Conformément à la Section 53 (5) a) de la *Loi sur l'aménagement du territoire, L.R.O. 1990*, l'Autorité d'approbation du consentement doit faire circuler cet avis aux personnes et organismes publics prescrits, y compris tous les propriétaires / locataires adjacents à moins de 60 mètres de la séparation proposée.

**But et effet**

Le propriétaire propose de séparer la partie arrière du lot existant de la partie principale de la propriété. La partie arrière du lot faisait autrefois partie de la rue des Épinettes et a depuis été fermée. La portion sectionnée continuera de donner accès à des lots attenants au sud. L'application a pour effet de reconfigurer le lot existant, mais aucun développement n'est proposé pour le moment.

Si une personne ou un organisme public qui interjette appel d'une décision de la Corporation du Canton de Dubreuilville à l'égard du consentement proposé ne soumet pas d'observations écrites à la Corporation du Canton de Dubreuilville avant de donner ou de refuser de donner un consentement provisoire, le Tribunal d'appel de l'aménagement local peut rejeter l'appel.

Si vous souhaitez être avisé de la décision de la Corporation du Canton de Dubreuilville concernant la séparation proposée, vous devez faire une demande écrite à la Corporation du Canton de Dubreuilville.

**Des renseignements supplémentaires** concernant cette demande sont disponibles au bureau du Canton, 23, rue Pins, Dubreuilville ON pendant les heures normales de bureau. Veuillez citer le numéro de dossier 2020-02-04-Consent-01. Veuillez contacter Shelley B. Casey au 705-884-2340 poste 22 ou [scasey@dubreuilville.ca](mailto:scasey@dubreuilville.ca) pour prendre rendez-vous si vous souhaitez examiner la demande.

DATÉ AU CANTON DE DUBREUILVILLE, CE 4ème jour de février 2020. Signé, Shelley B. Casey, Directrice administrative-Greffière, La Corporation du Canton de Dubreuilville, 23, rue des Pins, C.P.367, Dubreuilville ON P0S 1B0, 705-884-2340 poste 22, [scasey@dubreuilville.ca](mailto:scasey@dubreuilville.ca).

**THE CORPORATION OF THE TOWNSHIP OF DUBREUILVILLE  
NOTICE OF A CONSENT APPLICATION (AND PUBLIC MEETING)**

**TAKE NOTICE** that the Corporation of the Township of Dubreuilville has received an application for consent under Section 53(1) of the *Planning Act, R.S.O. 1990* for the lands municipally known as 21 Pins Street, as shown on the map below. The Corporation of the Township of Dubreuilville will hold a public meeting on **Wednesday, February 26, 2020**, at the Township of Dubreuilville Council Chambers, 23 Pins Street, Dubreuilville, ON at **6:30 p.m.** to discuss the proposal.

Pursuant to Section 53(5)(a) of the *Planning Act, R.S.O. 1990*, the Consent Approval Authority must circulate this notice to the prescribed persons and public bodies, including all adjacent owners/tenants within 60 metres of the proposed severance.

**Purpose and Effect**

The landowner proposes to sever the rear portion of the existing lot from the main part of the property. The rear portion of the lot formerly comprised part of Épinettes Street, and has since been closed. The severed portion will continue to provide access to abutting lots to the south. The effect of the application is to reconfigure the existing lot, but no development is proposed at this time.

If a person or public body that files an appeal of a decision of the Corporation of the Township of Dubreuilville in respect of the proposed consent does not make written submissions to the Corporation of the Township of Dubreuilville before it gives or refuses to give a provisional consent, the Local Planning Appeals Tribunal may dismiss the appeal.

If you wish to be notified of the decision of the Corporation of the Township of Dubreuilville in respect of the proposed consent, you must make a written request to the Corporation of the Township of Dubreuilville.

**Additional information** concerning this application is available at the Township Office, 23 Pins Street, Dubreuilville, ON during regular office hours. Please quote File No. 2020-02-04-Consent-01. Please contact Shelley B. Casey at 705-884-2340 x 22 or [scasey@dubreuilville.ca](mailto:scasey@dubreuilville.ca) to make an appointment if you wish to review the application.

DATED AT THE TOWNSHIP OF DUBREUILVILLE, THIS 4<sup>TH</sup> day of February, 2020.

Signed, Shelley B. Casey, CAO-Clerk, The Corporation of the Township of Dubreuilville, 23 Pins Street, P.O. Box 367, Dubreuilville, ON P0S 1B0, 705-884-2340 x 22, [scasey@dubreuilville.ca](mailto:scasey@dubreuilville.ca).

**From:** Public Inquiry Line <CONTACT@cn.ca>  
**Sent:** January-23-20 2:04 PM  
**To:** Shelley B. Casey  
**Subject:** CN's contact information  
**Attachments:** CN PublicInquiry and PoliceLineENG.pdf

Dear Ms. Casey:

CN is committed to maintaining positive and proactive communications with the communities in which we operate. We would appreciate it if you would share the following information with your communications officer and/or residents of the The Corporation of the Township of Dubreuilville.

For questions or non-emergency concerns, such as:

- Condition of property and crossings (e.g. grade crossings, rail ties, etc.)
- Environment (e.g. vegetation, grass cutting, trees, etc.)
- Permits and/or flag persons
- Noise (e.g. whistling)
- General operations (e.g. train speeds, hours of operation, etc.)

**Please contact the CN's Public Inquiry Line (PIL) either by phone at 1-888-888-5909 or by email at [contact@cn.ca](mailto:contact@cn.ca).** It is important that all citizens' inquiries go through the PIL in order for CN to accurately monitor and analyze concerns and resolutions across our network.

CN Police staff are also available for emergency or safety related issues, such as trespassing on tracks, unlawful activity, crossing signal defect, etc. Residents should contact CN Police either by email at [CNPoliceTipLine@cn.ca](mailto:CNPoliceTipLine@cn.ca) for non-urgent suspicious activities or by phone at 1-800-465-9239 for emergencies.

We have also enclosed an information sheet with the above information that can also be shared with the public.

Thank you in advance for sharing this information with your residents.

Kind regards,

**Public Inquiry Line Team**

# Here for you

## CN Public Inquiry Line

CN's Public Inquiry Line is the central point of contact for the public with non-emergency concerns, such as:

- Noise
- Train whistling
- General property maintenance
- Etc.

To contact the team:

(Monday to Friday, from 8 a.m. to 6 p.m., ET)

**1-888-888-5909** | [contact@cn.ca](mailto:contact@cn.ca)

## CN Police

CN Police staff will answer emergency calls and dispatch officers when appropriate.

There are many reasons to call CN Police, such as:

- Trespassing on tracks
- Unlawful activity
- Crossing signal defect
- Etc.

To contact CN Police

Emergencies: **1-800-465-9239** (24/7)

Non-urgent suspicious activities: [CNPoliceTipLine@cn.ca](mailto:CNPoliceTipLine@cn.ca)

## **About this Event**

### **About this Event**

Algoma's Workforce Planning Summit is hosted by the Algoma Workforce Investment Corporation (AWIC) and will bring together local employers and community stakeholders with subject matter experts to listen and learn from each other on addressing workforce issues and opportunities in Algoma. The event will feature a keynote presentation by Michelle Schurter along with panel discussions and presentations with local employers and subject matter experts.

### **Keynote Presentation: Michelle Schurter**

Michelle Schurter is CEO and Founder of Millennial Strategist, [www.millennialstrategist.com](http://www.millennialstrategist.com). She's a leadership expert who provides practical, savvy advice to organizations to help attract, lead and grow their millennial employees in a cross generational workforce.

### **Introducing...the Gen Lens™**

Geared to employers, company owners and organization leaders, Michelle's keynote presentation is offered as a kick-starter on the opportunities and challenges of a multi-generational workplace.

- Why are we talking about generations at work?
- What's underneath the challenging trends between people across different generations?
- Where is this disconnect coming from?
- How can we shift our thinking, then move to action to leverage the talent from all generations?

The Gen Lens™ will give generational lens to employers in Algoma through which they can view their own challenges and opportunities as they move from an older workforce to a younger one.

### **Other areas of conversation:**

- Attraction and Retention strategies for local employers.

- Managing the knowledge transfer as an aging workforce retires.
- Update on Immigration in Algoma

**Agenda:**

9:30 – 10:00 Registration

10:00 – 10:20 Welcome and Overview of Algoma's Labour Market by AWIC

10:20 – 10:50 Attraction, Retention & Talent Development panel featuring local employers on what has worked in their organizations and the challenges they face.

11:00- 11:30 Succession Planning panel – from small employers to big, how do you effectively manage the transfer of knowledge as your workforce retires.

11:30 – 12:00 Update on Immigration – Overview of the Rural Northern Immigration Pilot (RNIP) and immigration programs available to employers in Algoma.

12:00 – 12:30 Lunch Break

12:30 – 1:30 Key Note Presentation | Michelle Schurter | millennial strategist

1:30 – 1:45 Wrap-up - What is coming up next from AWIC

This Employment Ontario project is funded in part the Government of Canada  
and by the Government of Ontario

**Seniors' Health Advisory Committee  
Sault Ste. Marie and Algoma District**

Beverly Nantel, Mayor  
Dubreuilville Town Council  
Dubreuilville, Ontario ON P0S 1B0  
Via Email: [bnantel@dubreuilville.ca](mailto:bnantel@dubreuilville.ca)

2020 01 29

Dear Mayor Nantel:

Ontario's healthcare services have been rationed and downsized for decades and now often fail to meet the health needs of seniors and the public in general. The most recent announced health cuts and mergers will exacerbate the situation and lead to more suffering on the part of those who are aging and those who suffer chronic illness, those who have paid all their lives in their taxes for a public health care system.

Across Ontario, municipal governments have passed resolutions to inform the Ontario government that cutting health care services in Ontario is not acceptable. One such motion was passed by the Prince Township Council at its meeting of 2019 12 10 and is posted on:

[https://www.princetownship.ca/uploads/3/9/8/6/39869797/official\\_minutes\\_dec\\_10\\_2019.pdf](https://www.princetownship.ca/uploads/3/9/8/6/39869797/official_minutes_dec_10_2019.pdf)

The Sault Ste. Marie and Algoma District Seniors' Health Advisory Committee (SHAC), in its role as advocate for local seniors, urges the Dubreuilville Town Council to pass a similar resolution.

Please consider and pass the following resolution in the hope that it will influence the provincial government as it seeks feedback regarding its health care proposals.

WHEREAS public health care consistently ranks as the top priority in public opinion polls, and;

WHEREAS Public Health provides vital health promotion and prevention services based on the unique demographic and economic, social, and cultural needs of our communities, and;

WHEREAS the evidence from hospital amalgamation in Ontario and across Canada is that they have cost billions of dollars and have not yielded the promised administrative savings but have taken money away from frontline care, and;

WHEREAS there is no evidence to support the proposed closure of 25 out of 35 local Public Health Units, the closure of 12 of 22 local ambulance dispatch centres, and the closure of 49 out of 59 local ambulance services, and;

WHEREAS there is a deep consensus among virtually all stakeholders that increasing acuity in our long-term care homes requires additional staff and resources, not cancellation of the two special funds and real dollar cuts to per diem funding of our long-term care homes, and;

WHEREAS our local hospitals have been downsized for an entire generation and cannot meet population needs while sustaining real dollar cuts to hospital global budgets, and;

WHEREAS we recognize that the provincial government has named a facilitator to conduct consultations on the proposed closures and mergers of local Public Health Units, local ambulance dispatch centres, and local ambulance services.

THEREFORE, BE IT RESOLVED:

The municipality of Dubreuilvill calls upon the Ontario government to halt the closures of, mergers of, and cuts to our local health care services including Public Health Units, land ambulance services, hospitals and long-term care homes.

Please speak on behalf of our Algoma community.

Sincerely,

A handwritten signature in cursive script, reading "Myra Piirtoniemi".

Myra Piirtoniemi, Chair,  
Seniors' Health Advisory Committee  
Sault Ste. Marie and Algoma District  
(shaccchair@gmail.com)

January 24, 2020

To: All Ontario Municipalities

**Re: Ontario Power Generation's Deep Geologic Repository Project**

At its meeting held on January 20, 2020, Sarnia City Council considered the attached motion submitted by Councillor Margaret Bird with respect to the proposed Deep Geological Repository Project and adopted the following resolution:

***That Sarnia City Council support the halting of the construction of the Deep Geological Repository, in the Bruce Peninsular, so that less dangerous solutions can be found for the longer storage of nuclear waste; and***

***That Sarnia City Council instruct the Sarnia City Clerk to notify all 444 Ontario Municipalities, through AMO, by January 24th., 2020, of our objective; and***

***That the Sarnia City Clerk send a copy of our resolution to the County of Lambton Clerk, along with all the County Councillors, asking for their endorsement.***

Sarnia City Council respectfully seeks your endorsement of this resolution. If your municipal council endorses this resolution, we would request that a copy of the resolution be forwarded to the following:

Honourable Jonathan Wilkinson, Minister of the Environment and Climate Change  
[ec.ministre-minister.ec@canada.ca](mailto:ec.ministre-minister.ec@canada.ca); and

City of Sarnia, City Clerk's Office  
[clerks@sarnia.ca](mailto:clerks@sarnia.ca)

Sincerely,

A handwritten signature in cursive script that reads "Dianne Gould-Brown".

Dianne Gould-Brown  
City Clerk

Attachment: Motion submitted by Councillor Margaret Bird

**MOTION**

**I am asking for:**

**a) An urgent resolution of Council to support the halting of the construction of the Deep Geological Repository, in the Bruce Peninsular, so that less dangerous solutions can be found for the longer storage of nuclear waste.**

**b) To instruct the Sarnia City Clerk to notify all 444 Ontario Municipalities, through AMO, by January 24<sup>th</sup>., 2020, of our objective.**

**b) For the Sarnia City Clerk to send a copy of our resolution to the County of Lambton Clerk, along with all the County Councillors, asking for their endorsement.**

If you have any questions, please do not hesitate to contact me.

Many thanks.

Kind Regards,

Councillor Bird

Forest Sector Strategy Draft Presentation

Sault Ste Marie

Jan 29, 2020

Present: 4 from MNRF, 1 from industry, Mayor from Huron Shores, Mayor from Thessalon, Tarbutt Twp, myself and tourism sector rep.

MNRF presented their draft of the strategic plan that they will implement over a number of years

Part of this process was to consult and have round tables of public, industry and first nation concerns

The government is very aware that they need to change the way we look after our forests on a number of levels.

It was interesting how the government see the importance of the forest as part of climate control, so changing building codes to increase levels of buildings to be made of wood as these buildings store carbon over steel buildings.

Interesting fact that a tree will absorb carbon from 10years to 60 years then dies and the decaying tree then releases it back into the atmosphere. So if it the tree is cut, the carbon is trapped in lumber and they plan new trees to continue the carbon cleaning process.

They will look at training, educating public and also schools, (forestry gets a bad rep).

Government will look at ways to support industry better and also municipalities and first nations through shared stumpage fees.

They are looking at models that Finland has incorporated many years ago and it is working for them, renewable, less carbon foot print.

The movement to remove plastic from our environment is only positive for the forestry.

Was a very enlightening presentation and the movement to bring back the forestry and looking after our forest.

Beverly

# Draft Forest Sector Strategy

**A Blueprint  
for Success:**  
Ontario's Forest Sector  
Strategy DRAFT

Ontario 

# Outline

- Ontario's Forest Sector

  - Fostering Innovation, Markets & Talents
- The Road Ahead

# Ontario's Forest Sector

- The forest industry is a key element of Ontario's economy
- Communities in Northern Ontario are five times more dependent on forest resources and services for their economic well-being when compared to other economic regions of the province.

## 2017 ANNUAL STATS

**\$4.9B**

contribution to the provincial GDP

**\$16.6B**

total revenue of the forest sector

**\$6.5B**

forest sector exports including **\$1.2B** in wood furniture exports

**155,000**

direct + indirect + induced jobs

## IN ONTARIO THERE ARE...

**71.1M** hectares of forest

**27.7M** hectares of managed Crown forests

**1.6M**

hectares of disturbance area annually (fire, insect, diseases, wind throw)

**0.1M**

hectares of Crown forest harvested annually (less than 0.5% of the managed Crown forest)

# Why do we need a Forest Sector Strategy?

- Currently, the volume of timber harvested is less than 60% of what it was in 2000.
  - In 2018/19, ~14 million m<sup>3</sup> was harvested from Crown forests while the sustainable volume available for harvest was about 30 million m<sup>3</sup>
- There is ~15 million m<sup>3</sup> of available wood supply that industry has not been able to harvest which could support further investment and allow Ontario to capitalize on future markets without impacting forest sustainability.
- At the same time there is increasing global consumer demand and preference for renewable, recyclable, and green products from sustainably managed forests.

**Ontario's Crown Forest in 2018**  
**Average Annual - Growth/Available Harvest/Actual Harvest**

# Forest Sector Strategy Information Gathering

- The strategy is based on input from industry, municipal, and Indigenous leaders from seven roundtable sessions held across Ontario

Anyone had the opportunity to participate by completing an online survey or submitting an email through the Forestry Sector Strategy website -

<https://www.ontario.ca/page/ontarios-forestry-strategy>

173 attended roundtable sessions  
134 responses to the online survey and emails

Sault Ste. Marie 2018/11/15	Kitchener- Waterloo 2019/01/22
Kenora 2019/02/11	North Bay 2019/03/01
Thunder Bay 2019/03/22	Pembroke 2019/04/16
Hearst 2019/05/03	

# **Forest Sector Strategy Information Gathering**

## **What we heard at roundtables:**

- The industry needs a guaranteed, affordable, and consistent wood supply.
- The forest planning process has several areas of duplication and many inefficiencies.
- Log and operating costs are too high (e.g. energy, transportation, equipment, forest management planning) – a clear need to reduce costs and reduce unnecessary burdens
- Uncertainty around trade and markets and lack of flexibility for innovation in forestry (planning, supply chain management, manufacturing), are impacting the industry's ability to recover, modernize, diversify, innovate and invest.
- Labour and skills shortages are creating challenges.
- Indigenous representatives emphasized respect for Aboriginal and Treaty rights, having greater involvement in managing forests and the forest sector, including economic benefits from forestry.

## Ministry Direction

- To develop a draft strategy, we held seven roundtable sessions across this province. We listened to Indigenous, municipal and industry leaders, entrepreneurs and innovators, experts and people from communities across Ontario who shared their experiences and ideas.
- This draft forest sector strategy is based on what we heard and presents steps we could take to support businesses in taking full advantage of the tremendous potential of Ontario's forests while ensuring high standards of sustainable forest management.
- We are committed to engaging and consulting on the draft strategy and on specific initiatives and look forward to your feedback on how we can make Ontario's forest sector stronger and more dynamic than ever before.

## VISION

Ontario's Forest Sector is a world leader in making and selling forest products from renewable, sustainable and responsibly managed forests.

Ontario is a preferred location for investing in commodity and innovative forest products and advanced manufacturing.

# Forest Sector Strategy Overview Ontario

## PUTTING MORE WOOD TO WORK

### Goals

- Modernize and improve our forest inventory
- Remove barriers to accessing wood
- Evaluate ways to grow more wood
- Provide wood supply certainty
- Increase use of available wood supply

By 2030:

- Harvest the sustainable wood supply
- Improve estimates of quantity and quality for unused wood supply
- Establish targets for forest growth and harvest
- Establish intensive forest management areas
- Explore ways to encourage harvest on private lands

### Initial Areas for Action

#### Investing in Advanced Remote Sensing Technologies

Ontario will invest \$54.5 million to enhance the forest inventory. More accurate information about Ontario's wood supply will be achieved by using Light Detection and Ranging (LiDAR), an advanced remote sensing technology. The enhanced forest inventory will better inform forest management planning and decision-making. Ontario will improve the quality of forest information by capitalizing on advanced remote sensing technology to provide timely information.

#### Removing Policy Barriers to Accessing Wood

Policy barriers to accessing wood will be removed while maintaining the rigour of our sustainable forest management framework. This can be accomplished by eliminating redundancy and overlap in legislation, providing a consistent interpretation of forest policy and implementation practices through training and knowledge transfer.

### Future Action Areas

This strategy is intended to have a 10-year time horizon.

Each pillar of the draft strategy has three sections:

- Anticipated goals both shorter term, longer term;
- “Initial Areas for Action” ,
- some of which we are consulting on through these meeting and
- we will consult on several others in future sessions as they are developed;

### “Future Action Areas” ,

- a series of longer term actions to be developed, and implemented over the next 10-years.

#### Harvesting Our Sustainable, Available Wood Supply

Ontario's Crown Forest in 2018  
Average Annual - Growth/Available Harvest/Actual Harvest

Approved forest management plans for Ontario's Crown forests identify about 30 million cubic metres of wood supply that can be harvested annually while ensuring our forests are managed sustainably. Recent provincial harvest levels, however, have only reached 15 million cubic metres per year. Our managed forests currently produce more than 38 million cubic metres of growth annually. The target harvest level of 30 million cubic metres is significantly less than annual forest growth. There is a significant opportunity to increase harvest levels up to the 30 million cubic metres while meeting the objectives (e.g. biodiversity, wildlife habitat, species at risk, etc.) laid out in forest management plans. Ensuring the sustainability of our forests is a key principle of Ontario's forest management system.

## Promoting Stewardship & Sustainability

- Earning Recognition for Our Sustainable Forest Management Practices
- Conducting Applied Research and Best Science
  - *Stand and Site Guide Revision Project*
  - *Long-Term Forest Management Proposals*
- Establishing and Strengthening Partnerships with Indigenous Peoples
- Improving Collaboration in Managing Forests
- Respecting Indigenous Rights and Protecting Forest Values

By 2022

By 2030

- Responding to a Changing Climate.

## Establishing and Strengthening Partnerships with Indigenous Peoples

### Draft Forest Sector Strategy pg.29

- Ontario will continue working with Indigenous communities, organizations, and businesses, along with the forest industry and municipalities to further share the economic benefits from forestry by:
  - Building the capacity of Indigenous businesses and workers to participate in the forest sector
  - Increasing involvement through collaborative business partnerships
  - Exploring options to expand resource revenue sharing with more Indigenous communities and Northern municipalities

mining) - Stumping fees be shared with municipalities / Indigenous

- giving in one hand

as long as it isn't take from the other 11

hand - ie: health, education, services

this will be on going talks with Minister of Finances

## Improving Collaboration in Managing Forests

Draft Forest Sector Strategy pg.29

- Continue to implement locally supported forest tenure modernization initiatives and management unit amalgamations.
- Work with industry, community and Indigenous partners reviewing collaborative proposals.
- This action will provide greater local and Indigenous community involvement in forest management, forest business development and capacity building in the forest sector.

## Respecting Indigenous Rights and Protecting Forest Values

Ontario

### Draft Forest Sector Strategy pg.29

- Ontario recognizes that Indigenous communities hold Aboriginal and Treaty rights and many rely on healthy forests to exercise those rights. Ontario also acknowledges the cultural significance of forests to many Indigenous communities. Forest management will continue to be sustainable and carried out in a way that respects Aboriginal and Treaty rights and cultural values.
- The protection of Indigenous values identified through forest management will continue to contribute to the sustainability of Ontario's forests.
- Continue to prevent and mitigate losses and minimize the economic and social disruption caused by wildfire events. Maintain healthy forests, ensure public safety and protect infrastructure.
- Support the role of Indigenous firefighters and support fire management programs.
- Continue to promote Ontario's world-class outdoor recreation while continuing to be a world leader in managing Ontario's natural environment for future generations.

## Earning Recognition for Our Sustainable Forest Management Practices

### Draft Forest Sector Strategy pg.28

- Maintain recognition as a leader in sustainable forest management
- Collaborate with the Canadian Council of Forest Ministers' "Forest in Mind Program" to address market challenges to ensure that international customers have all the facts they need about Ontario's strong record in sustainable forest management.
- Use <sup>advertising</sup> "It Takes a Forest" initiative to help make the public aware of our strong record of forest management.
- Promote and use educational tools including lesson plans and immersive educational experiences like Forestry in the Classroom and Forestry Connects.
- Continue to work with the forest industry, Indigenous communities and other partners to maintain and adapt the forest management planning process to sustainably manage Ontario's forests and enable a strong and vibrant forest
- Pursue strategic alliances with ongoing third-party certification systems to take advantage of extensive marketing tools to reach key groups.

## Conducting Applied Research and Best Science

Draft Forest Sector Strategy pg.28

- Continue to support applied research and monitoring to inform evidence-based decision-making and policy using the best science and information to support forest management planning and adapting our management practices to a changing climate.
- Examples of initiatives include:
  - *Stand and Site Guide*
  - *Seed Transfer Policy*
    - Keep seeds in their specific zones
    - or move them to different zones because of climate change.

**By 2030** - Modernize and adapt forest management planning process to maintain the sustainability of Ontario's Crown forests

Draft Forest Sector Strategy pg.30

## Long-Term Forest Management Proposals

- MNRF is beginning to explore broad policy options that may represent “best bets” for further efficiencies in forest management planning while continuing to provide for the sustainability of Crown forests. These broad policy options include:
  - Preparing forest management plans that cover larger areas (i.e., landscape level);
  - Enabling scalability of FMPs (i.e., economies of scale)
  - Applying intensive forest management to increase available wood supply;
  - Continuing to streamline the forest management planning process;
  - Supporting increased harvest within sustainable limits (e.g., improve economics, more flexible operational requirements)
- Potential revisions will enhance ability to set priorities based on the risk to natural resources, stakeholders, and the public.

## By 2030 - Responding to a Changing Climate

- Continue to advance our understanding of the role of sustainable forest management in climate change adaptation and mitigation.
- Explore opportunities to reduce and store greenhouse gases as trees capture and store carbon dioxide.
- Adapt to, and mitigate the effects of, existing and future climactic changes by helping to build resiliency in communities, and in reducing the potential impacts from wildland fires. For example, biomass harvesting around communities from the U.S. has proven successful in reducing community wildfire vulnerability.

## By 2030 - Responding to a Changing Climate

### \* Active Forest Management

- Work with industry to further increase carbon storage in forests and harvested wood products and adapt management practices to enable productive and resilient forests into the future.
- Promote the use of renewable forest biomass by industry and as an energy source to provide heat and potentially both heat and power for northern, rural and Indigenous communities.
- Undertake a Provincial Climate Change Impact to help the sector to become more resilient and support its competitiveness and sustainability.
- Develop strategic direction to protect critical forest access road infrastructure, enhance our response to forest pest outbreaks, help protect forest health, improve resiliency of Ontario's Crown forests and ensure future wood supply.
- Exploring opportunities to encourage afforestation on private lands that are not productive for agriculture will increase forested area.

stored carbon storage

i.e: multi levels of building with wood.

18

cut trees, keeps dead trees out (carbon producers) plant new

## Putting More Wood to Work

<p><b>By 2022</b></p>	<ul style="list-style-type: none"> <li>• Investing in Advanced Remote Sensing Technologies</li> <li>• Removing Policy Barriers to Accessing Wood             <ul style="list-style-type: none"> <li>• <i>CFSA – Species at Risk</i></li> <li>• <i>Forest Pest Discussion Paper</i></li> </ul> </li> <li>• Providing a Path to Increase Forest Growth</li> <li>• Providing Wood Supply Certainty, Ensure Use and Attract New Investment</li> </ul>
<p><b>By 2030</b></p>	<ul style="list-style-type: none"> <li>• Harvesting Our Sustainable, Available Wood Supply</li> <li>• Establishing Targets for Forest Growth</li> <li>• Boosting Our Forest’s Productivity</li> <li>• Enhancing Private Land Harvesting</li> </ul>

## Investing in Advancing Remote Sensing Technologies

Draft Forest Sector Strategy pg.18

- Invest \$84.5 million in advanced remote sensing technology to modernize and improve the Forest Inventory
- Keep accurate and timely information about the growth and development of regenerating forests after harvest
- Use Light Detection and Ranging (LiDAR), an advanced remote sensing technology.

## A Path to Increase Forest Growth

Draft Forest Sector Strategy pg.18

- Investing in enhanced forest resource inventory to provide better and more timely information about the status of Ontario's Crown forests.
- Produce accurate and timely information about the growth and development (e.g. response to various silvicultural treatments) of regenerating young forest following harvest in order to make decisions about the effectiveness of renewal programs.
- Use information in a strategic analyses to help determine the most effective means (e.g. silvicultural techniques and treatment areas) to increase forest growth rates and achieve other objectives of this strategy.

Providing Wood Supply Certainty, Ensuring Use and  
Attracting New Investment

Draft Forest Sector Strategy pg.18

- Produce a provincial wood utilization strategy and support existing forest operations while ensuring wood is either being used or made available.
- Consider other mechanisms that support existing mills and forest operators / and also attracts new business and new investment for underutilized wood supply.
- Assess the feasibility of centralized processing yards to help increase wood use and attract investment while supporting existing mills and forest operators.
- Work with forest managers and mills that have wood supply commitments to ensure wood supplies are used and available to support continued mill operations or are made it available for others to use.

6 out of 12 pulp mills left.

## Removing Policy Barriers to Accessing Wood

### Draft Forest Sector Strategy pg.18

- Policy barriers to accessing wood will be removed while maintaining the rigour of our sustainable forest management framework. This can be accomplished by eliminating redundancy and overlap in legislation, providing a consistent interpretation of forest policy and implementation practices through training and knowledge transfer.
- Examples of initiatives include:
  - *Proposed changes to the Crown Forest Sustainability Act to address forest operations and species at risk*
  - *Discussion paper: Developing strategic direction for managing forest pests in Ontario*

## By 2030 - Harvesting Our Sustainable, Available Wood Supply

### Draft Forest Sector Strategy pg.19

- Approved forest management plans for Ontario's Crown forests identify about 30 million cubic metres of wood supply that can be harvested annually while ensuring our forests are managed sustainably.
- Recent provincial harvest levels, however, have only reached 15 million cubic metres per year.
- Our managed forests currently produce more than 38 million cubic metres of growth annually.
- A target harvest level of 30 million cubic metres is significantly less than annual forest growth

Ontario's Crown Forest in 2018  
Average Annual - Growth/Available Harvest/Actual Harvest

- There is a significant opportunity to increase harvest levels up to the 30 million cubic metres while meeting the objectives (e.g. biodiversity, wildlife habitat, species at risk, etc.) laid out in forest management plans.
- Ensuring the sustainability of our forests is a key principle of Ontario's forest management system.
- Reaching the allowable sustainable harvest of about 30 million cubic metres by 2030 will require quantifying the types and locations of unused wood supplies by volume, location, species and quality with estimations of costs.
- Ontario is working with the Centre for Research & Innovation in the Bioeconomy to develop an economic fibre supply model that will help investors and communities identify options for expanding existing forest production and finding new markets.

*moving away from plastics, ie: bags, siding, straws  
- how does Ontario get ahead before losing to another country*

## By 2030 - Establishing Targets for Forest Growth

### Draft Forest Sector Strategy pg.20

- Conduct strategic analyses of current growth, harvest and natural disturbances to determine the types of actions that would be most effective in increasing the growth potential of our forests.
- Use analyses to achieve greater growth and/or product quality and ensuring timely and effective establishment of fully stocked stands following harvest; and protecting the forest from losses to fires and pests and investing in intensive treatments.
- By setting forest growth targets, Ontario commits to growing more wood, and maintaining our ability to balance biodiversity, conservation of natural resources, habitat, and cultural values while respecting Aboriginal and Treaty rights and society's growing need for wood products from sustainably managed forests.

**By 2030 - Boosting Our Forest's Productivity**

Draft Forest Sector Strategy pg.20

- Make strategic investments in intensive forest management activities to realize the growth potential of the forest.
- Establish growth targets and identify the type of intensive forest management activities as well as where and when conducting those activities would have the desired outcome

**By 2030 - Enhancing Private Land Harvesting**

- Ontario will consider use of various tools to encourage greater timber production on private lands

## Improving our Cost Competitiveness

- Reviewing Energy Costs
- Maximizing Use of Mill By-Products to Fight Climate Change
- Lowering Taxes
- Making Strategic Investments in Forest Access Roads
- Reviewing Certain Components of Stumpage
- Reducing Regulatory Burden/Streamline
  - *Environmental Assessment Act - Remove Duplication of Forest Management Planning Requirements*
  - *Consultation in Forest Management Planning*
  - *Forest Manuals Revision Project*
  - *Independent Forest Audit Efficiencies*

By 2022

- Enhancing the Alignment of Trusts
- Adopting New Technologies
- Realizing Benefits from Forest Inventory Investments

By 2030

## Review Energy Costs

- Ontario to review the design and effectiveness of industrial electricity pricing and programs, including the Industrial Conservation Initiative and the Northern Industrial Electricity Rate Program.

## Lowering Taxes

- Ontario is paralleling federal measures that allow businesses to accelerate write-offs of capital investments.
- These measures apply to assets acquired after November 20, 2018.

## Maximizing the Use of Mill By-products to Fight Climate Change

### Draft Forest Sector Strategy pg.21

- Ontario developed its own provincial policy as an alternative to the federal output-based pricing system to reduce carbon emissions, which recognizes the use of mill by-products (e.g. bark, small tops) to provide sources of biomass heat, steam and energy for manufacturing in place of fossil fuels.
- Maximize use of mill by-products reduces the need for more carbon intensive energy-based fuels and avoids unnecessary pressures on landfills.
- Support the highly integrated supply chains between pulp and paper, lumber and panel mills, where one mill's by-product (which also provides a revenue stream), supports another mill's wood supply and internal energy requirements.
- These mill by-products also offer an opportunity to develop new and innovative value-added products.

## Making Strategic Investments in Forest Access Roads

Draft Forest Sector Strategy pg.22

-  Invest in forest access roads because of the broad benefits to many Indigenous communities, tourism operators, cottagers, hunters, gatherers of food and medicines, the forest sector and other industries like rail, energy utilities, mining as well as emergency first responders.
- Review the overall effectiveness of the program to ensure that critical forest access road infrastructure continues to meet the diverse needs of many forest users.

## Reviewing Certain Components of Stumpage

Draft Forest Sector Strategy pg.22

- Ontario's timber pricing system is responsive to market trends. Elements of the timber pricing system could be strategically reviewed with our industry partners to encourage greater timber utilization and the harvest of species and lower quality logs that currently have no markets

## Reducing Regulatory Burden/Streamlining

### Draft Forest Sector Strategy pg.22

- Ontario is working to deliver further red tape and regulatory burden relief for the forest sector, including streamlining the process for permits and approvals, removing duplication, modernizing the forest management planning process and the approach to independent forest audits. All of this will reduce costs to industry and government while continuing to ensure our forests are sustainably managed.
- Examples of initiatives underway include:
  - *Proposal under the Environmental Assessment Act to remove Regulatory Duplication of Forest Management requirements in Ontario*
  - *First Nation and Métis Community Involvement and Consultation in Forest Management Planning*
  - *Forest Manuals Revision*
  - *Independent Forest Audits* *from a 5 yr to a 10 yr*  
*(Forest management Plans are 10 yrs just to re-align)*

## By 2030 - Enhancing the Alignment of the Trusts

Draft Forest Sector Strategy pg.23

Ontario

- Ontario will leverage the silviculture funding available through the Forestry Futures Trust and the Forest Renewal Trust to further support the objectives of the forest sector strategy.
- Explore ways of enhancing forest management within the province with actions that increase available wood supplies and contribute to cost competitiveness

## By 2030 - Realizing Benefits from Forest Inventory Investments

Draft Forest Sector Strategy pg.23

- Ontario's investment in advanced remote sensing technologies, such as LiDAR will create opportunities to undertake better analysis and can help automate planning and reporting requirements, which will reduce costs.

## By 2030 - Adopting New Technologies

### Draft Forest Sector Strategy pg.27

- Ontario is working with the forest industry, the Centre for Research Innovation and the Bioeconomy, FPInnovations, and others to explore mechanisms for enhancing competitiveness, including the adoption of innovative tools that optimize industrial processes, harvesting, renewal, and road building operations.
- In support of the government's draft Made-In-Ontario Environment Plan, cost-effective biomass energy alternatives for industry and communities will be assessed based on modelling delivered fibre costs and examining integrated solutions for heat and power.

- replacing steel building (because land/soil may not handle the weight) with wood. increasing levels of buildings

## Fostering Innovation, Markets & Talents

- Making Strategic Investments
- Promoting Innovation
- Increasing Wood Use
- Reaching New Markets
- Addressing Barriers to Trade
- Making Ontario Wood the Natural Choice
- Collaborating on Carbon Analysis
- Growing Talent in the Forest Sector

By 2022

- Adopting New Technologies
- Testing Automated Vehicles
- Supporting Innovation in Construction

By 2030

## Making Strategic Investments

### Draft Forest Sector Strategy pg.24

- Make Ontario open for business, deliver maximum value and create broader opportunities for businesses, taxpayers, and communities across the province.
- The Forest Sector Investment and Innovation Program will support industry in building competitiveness and encourage investment in strategic projects in Ontario's forest sector. The program will advance the modernization of the industry and encourage innovation to diversify the sector and build on the integrated nature of the industry.
- Ontario is also ensuring the forest sector in Northern Ontario remains open for business. Through the Northern Ontario Heritage Fund Corporation (NOHFC), Ontario will invest in projects with the private sector to develop and commercialize new technologies and to grow and diversify the sector in the region.
- Through these investments, Ontario's forest sector will continue to provide long-term sustainable opportunities for the region's labour force and supply and services sectors

## Promoting Innovation

Draft Forest Sector Strategy pg.24

- Ontario is working with industry leaders, the Centre for Research & Innovation in the Bioeconomy (CRIBE), FPInnovations, and universities and colleges to support the commercialization of innovative forest products and processes.
- By linking the northern fibre supply with southern biochemical producers and engineered wood products manufacturers, renewable products can be produced that displace non-renewables and support job creation across Ontario.
- To accelerate commercialization of next generation forest products and technologies, Ontario will work with CRIBE, industry, Indigenous communities, and other partners to develop value chain roadmaps.

# Increasing Wood Use

Draft Forest Sector Strategy pg.25

- Create opportunities to increase the use of wood in construction where it has not traditionally been used before – use more wood in low-rise and taller residential, commercial and institutional buildings, and to build bridges

- *3 stories → 6 or 10 stories (12 stories)*  
Align building codes and standards, and develop tools, research and educational resources to enable a shift toward the increased use of wood in our infrastructure.

*B.C has an 18 story building*

- Further promote and facilitate opportunities for mass timber building systems by:
  - mapping the mass timber value chain
  - identifying linkages
  - improving integration from forest, to mill, manufacturer, developer and on to the consumer.
- Improve the business and policy environments to enable the use of sustainable and renewable biofuels for heat in Ontario.

## Reaching New Markets

Draft Forest Sector Strategy pg.25

- Ontario will enable small and medium-sized enterprises to access growing global export markets by providing strategic advice and market intelligence, and by supporting participation in trade missions in emerging markets

*90% goes to States.*

*Helping sector to explore over seas markets*

## Addressing Barriers to Trade

Draft Forest Sector Strategy pg.26

- Given our geography, our ability to export forest products to the United States is of critical importance. We are working together with our industry, governments across Canada and with partners in the U.S. to ensure that Ontario promotes open and fair trade in forest products

## Making Ontario Wood the Natural Choice

### Draft Forest Sector Strategy pg.26

- Ontario is also growing the domestic market, making it easier for consumers to find and purchase local wood products. When consumers purchase a product with the Ontario Wood logo, they will be assured that it was made from sustainably managed forests that were harvested in Ontario and manufactured here in the province.
- Working with our partners, we will increase public awareness about how Ontario's forest industry supports local economies and the environment through sustainable forest management practices.

*changing the image of Forestry  
they have a brand like "Ontario Food"*

## Collaborating on Carbon Analysis

Draft Forest Sector Strategy pg.26

- Ontario will work with Quebec to finalize the development of a tool that can be used by building designers to estimate greenhouse gas emissions from various building designs and help them make the best use of various wood products and the inherent ability of wood to store carbon

## Growing Talent in the Forest Sector

Draft Forest Sector Strategy pg.26

- Forestry, like many industries is suffering from labour shortages in a variety of roles – from truck drivers, logging operations and mill operations, to skilled trades and supervisors.
- Addressing this challenge requires collaborative efforts by associations, industry, Indigenous organizations, Ontario and the federal government. Together, we can develop and implement the required strategies that address labour shortages.
- This requires approaches to attract young Ontarians and Indigenous youth to forestry careers and highlight pathways into these careers. The Specialist High Skills Major (SHSM) program is offered in sectors such as Forestry, Environment, Manufacturing and Agriculture. This program reaches secondary students and exposes young adults to the opportunities available in forestry. The SHSM program, and dedicated funding support for experiential learning for students in Kindergarten to Grade 12, are key program supports for Ontario's education and career/life planning as outlined in Creating Pathways to Success.

# Growing Talent in the Forest Sector

Draft Forest Sector Strategy pg.26

- With a recognized connection to the land and natural resources, Indigenous participation in growing the future forestry workforce will contribute to a strengthened forest sector.
- Ontario will work with interested organizations to address gaps in training through innovative, interactive and experiential learning methods, like heavy equipment simulators and mobile or online classrooms.
- Through the NOHFC, Ontario will support northern Ontario employers, including the forest sector, in addressing skilled labour shortages in the region. Through the NOHFC's internship program, employers will be eligible to seek support when hiring individuals that will be trained to fill skilled labour gaps in the region.
- Through these investments, Ontario will support the North's labour force to meet the needs of employers.

## By 2030 - Adopting New Technologies

### Draft Forest Sector Strategy pg.27

- 5G networks will radically affect various industries throughout our economy, including in the forest sector.
- It will enable the adoption of a range of automation technologies that can improve supply chain management and allow manufacturers to adapt quickly to changing market demands.
- Smart manufacturing technologies will enable the industry to thrive in this new environment, make the best use of our forest resources and maximize their productivity

## By 2030 - Testing Automated Vehicles

Draft Forest Sector Strategy pg.27

- Ontario is facing a shortage of truck drivers to haul wood to mills and product to markets.
- Working with our partners, Ontario will explore the applicability of highly automated vehicles to the forestry sector and support the testing of these vehicles to help address this need.
- We will also review potential barriers to adoption of these technologies and seek to find solutions that could enable their use to benefit Ontario

## By 2030 - Supporting Innovation in Construction

### Draft Forest Sector Strategy pg.27

- Increase the adoption of modular building construction and prefabrication using advanced engineered wood products from Ontario's forests can help the industry innovate.
- Promote a shift in the way building projects are delivered towards faster, more efficient, more cost-effective and more sustainable construction.
- Highlight opportunities to increase the use of wood in applications where it is best suited
- Update publications such as the Ontario Tall Wood Building Reference and the Ontario Wood Bridge Guide to capture enhancements to building and construction codes and scientific advancements.

The forest sector is an important part of Ontario's history and a critical part of the province's future. That's why we will continue to work with our partners to ensure its continued growth and prosperity for many years to come. This province has a unique combination of forest enterprises, secondary manufacturing and technology expertise, giving us a major economic advantage that we will continue to build on.

This draft strategy sets out key goals and actions to transform the forest sector over the next 10 years. To achieve the goals in this strategy we will need to work with industry, Indigenous communities, municipalities, the federal government as well as research, innovation and education institutions.

Clearly our biggest asset and greatest advantage is our forests, which is why we need to ensure forest sustainability remains a key principle as we implement Ontario's forest sector strategy. There are few natural resource sectors that can grow back and replenish what they take in a manner that will ensure that our forests remain healthy and available for future generations.

**Working with Indigenous Communities**

Indigenous communities and their members are important contributors, economic players and leaders in the forest sector and have constitutionally protected rights that are exercised in Ontario's forests. Ontario will continue to engage and consult with affected communities as elements of the Forest Sector Strategy are developed.

**Advisory Committees**

A Forest Sector Strategy Advisory Committee will support the development of an implementation plan for the various actions contained within this strategy. In partnership with the ministry, the advisory committee will provide advice on the implementation of the strategy and will support the development of key performance indicators to measure the progress on implementing the actions and the success of this strategy. The advisory committee will also be responsible for reporting annually on the progress made in achieving the actions listed in each pillar.

**Key Performance Indicators**

To assist with monitoring progress on the strategy once it is finalized, Ontario will commit to developing key performance indicators where possible for the actions identified under each pillar. Key performance indicators will include direct measures (outputs), that monitored over time will track changes and trends to be assessed how effective the various actions have been (outcomes) towards meeting the goals under each pillar.

Together, we can build a bright future for the forest sector and the many people and communities who rely on it. The best thing is that the results will come from our most important and valued asset – a sustainably managed forest.

# The Road Ahead

## Working with Indigenous Communities

Indigenous communities and their members are important contributors, economic players and leaders in the forest sector and have constitutionally protected rights that are exercised in Ontario's forests. Ontario will continue to engage and consult with affected communities as elements of the Forest Sector Strategy are developed.

- Collaborating with partners within industry, as well as federal, municipal and Indigenous governments, will be important to the success of the Strategy.
- Inter-ministry collaboration is also key to the successful implement several actions within the proposed Strategy.
- MNRF will report back to Cabinet with a finalized Strategy in the spring 2020.

## Advisory Committee

A Forest Sector Strategy Advisory Committee will support the development of an implementation plan for the various actions contained within this strategy. In partnership with the ministry, the advisory committee will provide advice on the implementation of the strategy and will support the development of key performance indicators to measure the progress on implementing the actions and the success of this strategy. The advisory committee will also be responsible for reporting annually on the progress made in achieving the actions listed in each pillar.

## **Pathways to Engagement and Consultation**

 **November 2018-May 2019**

Seven stakeholder roundtable sessions were held throughout the province to gather input for the strategy

 **August-September 2019**

Further information gathering to develop a draft Forest Sector Strategy

 **December 4, 2019**

Announcement of draft strategy and draft was posted on the Environmental Registry and Ontario.ca for comment and review <https://ero.ontario.ca/notice/019-0880>

 **December 20, 2019**

Other policy related initiatives will be posted on the Environmental Registry.

 **January 13-31, 2020**

Six regional consultation sessions will be held with communities that are in or adjacent to the area of the undertaking.

 **February 5th, 2020**

Comment period on the draft strategy on the Environmental Registry will close

# Annual Report

From the

for the

Corporation of the  
**Township of Dubreuilville**

For the year ending December 31<sup>st</sup>

# 2019

*Prenez le temps de vivre*  *Experience the Freedom*

January 14, 2020

Mayor Beverly Nantel and members of council:

I am pleased to present the Annual Report of the Township of Dubreuilville Fire Department for the year 2019.

The Fire Department managed a total of eight (8) calls for assistance in 2019, including one (1) MVC call, three (3) fire calls. Two (2) calls that got cancelled, one (1) call for ambulance assistance and one (1) false alarm. Unfortunately we lost a home during the year. We are in the process of recruiting one (1) new firefighter, but regret the resignation of one (1), keeping our team to 20 members.

We didn't suffer any injuries during 2019. There are clear indicators that public fire education and fire prevention programs, along with the effective emergency response of frontline firefighters across our province is having a positive impact.

The Dubreuilville Volunteer Fire Department, in partnership with the Office of the Fire Marshal-Emergency Management, will continue our efforts to reduce the fire-related losses in our community and convince the public to embrace a responsible fire-safe lifestyle.

I would like to take this opportunity to acknowledge and thank my management team: Deputy Fire Chief Justin Leclair, Prevention Officer Stephanie Sonier, Captain Steeve Pinel, Captain Robin Bélanger and Captain Davis Stevens, as well as every other member of our volunteer fire services organization for their valued support.

I would like to express appreciation on behalf of the Dubreuilville Fire Department to the Township staff and to you, Mayor Nantel, and all members of the Council, for your continued support and cooperation.

Respectfully yours,

A handwritten signature in cursive script that reads "Patrick Sigouin".

Patrick Sigouin  
Fire Chief  
Dubreuilville Volunteer Fire Department

## TRAINING

Training was conducted on a bi-weekly basis throughout the year. Training is a struggle to have everyone participate all at once with shift work; however, with the addition of new members to the team who are eager to learn, attendance has increased. The majority of training/practices are hands-on training based on the typical calls that the department responds to. In addition, some members attended courses during the year. It is essential for all firefighters to keep up with their skills, for their own safety, as well as their partners and the residents.

Training includes maintenance on our equipment such as: vehicles, vehicle checks, SCBAs, medical equipment, small engine equipment, etc. By doing training, firefighters get to learn the specific piece of equipment. There are many pieces of apparatus which need to be maintained, and it takes time to look after it. Many hours are also spent in administration, filing, keeping track of activities, training and record keeping.

# Dubreuilville Volunteer Fire Department

## Primary Goals and Mission Statement of the Dubreuilville Volunteer Fire Department

*The goal of the Dubreuilville Volunteer Fire Department is to provide fire protection services through a range of programs designed to protect the lives and property of the inhabitants from the adverse effects of fires or exposure to dangerous conditions created by man or nature; first to their municipality, second to those municipalities requiring assistance through authorized emergency fire service plan and program (mutual aid) activities; and third to those municipalities that are provided fire protection by the Fire Department via authorized agreement.*

*The primary mission of the Dubreuilville Volunteer Fire Department is to provide a range of programs to protect the lives and property of the inhabitants of the municipality from the adverse effects of fires or exposure to dangerous conditions created by man or nature.*

## **By-Law No. 2020-09**

### ***Being a By-law to confirm the proceedings of the Council of the Corporation of the Township of Dubreuilville at its regular meeting held on February 12, 2020.***

WHEREAS Section 9 of the Municipal Act, 2001, S.O. 2001, Chapter 25, provides that a municipality has the capacity, rights, powers and privileges of a natural person for the purpose of exercising its authority under this or any other Act; and

WHEREAS Section 5(1) of the Municipal Act, 2001, S.O. 2001, Chapter 25, provides that the powers of a municipal corporation are to be exercised by its Council; and

WHEREAS Section 5(3) of the said Municipal Act provides that the powers of every Council are to be exercised by by-law; and

WHEREAS it is deemed expedient that the proceedings of the Council of the Corporation of the Township of Dubreuilville at the February 12, 2020 meeting be confirmed and adopted through a confirmatory by-law;

**NOW THEREFORE BE IT RESOLVED THAT** the Council of the Corporation of the Township of Dubreuilville enacts the following as a By-Law:

1. The actions of the Council of the Corporation of the Township of Dubreuilville in respect of each recommendation and in respect of each motion and resolution passed, and other action taken by Council at the February 12, 2020 meeting is hereby adopted, ratified and confirmed as if all such proceedings were expressly embodied in this By-Law.
2. That where no individual by-law has been or is passed with respect to the taking of any action authorized in or by the above-mentioned minutes or with respect to the exercise of any powers by the Council in the above-mentioned minutes, then this by-law shall be deemed for all purposes to be the by-law required for approving and authorizing and taking of any action authorized therein or thereby, or required for the exercise of any powers therein by the Council.
3. That the Mayor and the CAO-Clerk of the Corporation of the Township of Dubreuilville are hereby authorized and directed to do all things necessary to give effect to the said action of the Council or to obtain approvals where required and, except where otherwise provided, the Mayor and the CAO-Clerk are hereby directed to execute all documents necessary on behalf of the Corporation of the Township of Dubreuilville and to affix the Corporate Seal thereto.

4. That this By-law shall come into force and take effect upon the passing thereof.

READ a first, second and third time and be finally passed this 12<sup>th</sup> day of February, 2020.
