FUNDING GRANTS:

Employment and Social Development Canada - New Horizons Grants

Assists with funding seniors programs

<http://www.hrsdc.gc.ca/eng/seniors/funding/>

http://www.legion.ca/wp-content/uploads/2014/06/SeniorsSupportManual_Eng.pdf

Many Legion Branches across Canada have applied for and received New Horizons grants from Employment and Social Development Canada to assist them with funding seniors' programs. If programs are sound and meet a real need in the community, many municipalities will contribute some of the start-up funds for your project. More information about the New Horizon Grant is available at the Employment and Social Development Canada website.

FUNDING ASSISTANCE:

Ministry of Health and Long-term Care – the Trillium Drug Program (TDP) Call 1-800-387-5559

http://www.health.gov.on.ca/en/public/programs/drugs/programs/odb/opdp_trillium.aspx

Inquiries regarding the Trillium Drug Program should be directed to:

Trillium Drug Program
P.O. Box 337, Station D
Etobicoke, Ontario
M9A 4X3

Telephone: 416-642-3038

Facsimile: 416-642-3034

Toll-Free: 1-800-575-5386
Text telephone (TTY): 1-800-387-5559
E-mail: trillium@ontariodrugbenefit.ca

The TDP helps people who have high prescription drug costs relative to their household income. It covers all drugs approved under the [Ontario Drug Benefit \(ODB\) program](#). For drug products that are not on the list of approved ODB products, your doctor may apply for special approval through the [Exceptional Access Program](#) (EAP).

- **Who can apply?** You may qualify for the Trillium Drug Program if you have a valid [Ontario health card](#) and you live in Ontario **AND** you are **not** covered under ODB as a [senior over 65 years of age](#), someone who receives financial help through [Ontario Works](#) or the [Ontario Disability Support Program](#), a resident of a long-term care home or home for special care, or someone who receives [home care services](#). You don't have private health insurance or your private insurance does not cover 100% of your prescription drug costs. **What costs will I pay?**
Under the TDP, you will pay two different fees each year:

1. You will pay a set amount of your prescription drug costs each year. This amount is called your "deductible." The amount of your deductible is based on your household income. For most people, the deductible equals about 4% of your household's combined net income. Net income is the amount shown on line 236 of your Notice of Assessment issued under the Income Tax Act (Canada) minus the amount of income from the Universal Child Care Benefit program (reported on line 117 of your tax return) and the amount withdrawn from your Canadian Registered Disability Savings Plan (reported on line 125 of your tax return).

The deductible you have to pay is split into four equal amounts over the year starting on August 1st. You pay your deductible by purchasing ODB approved prescription drug products at your pharmacy. Once you have purchased enough of these products to equal the amount of your deductible, then the ODB program pays for most of the cost of your drugs.

2. After you pay your deductible, your pharmacist may ask you to pay up to \$2 for each prescription that the ODB program covers. This amount is called a "co-payment".

United Way Sault Ste. Marie and District

www.ssmuntiedway.ca for an application and more information

Deadline is mid-December, final decisions made in March and funding received by April

District Grants Program:

The United Way of Sault Ste. Marie and district is committed to ensure that dollars donated in Sault Ste. Marie stay in Sault Ste. Marie and that dollars donated in district community's stay in the district. District grant programs are focused on one or more of the three areas of focus: All that Kids Can Be, From Poverty to Possibility, or Strong Communities. Grants are administered by a Volunteer Committee which consists of North Algoma, East Algoma, and United Way Board of Directors.

To be eligible for a district grant, an organization must meet the following criteria: Be a registered charity with an office in the community in question, be governed by an active Volunteer Board, show a need for financial assistance, and provide services which address one or more of the three areas of focus.

The United Way encourages partnerships in North Algoma. United Way is active in promoting district opportunities for companies and their employees to provide donations through payroll deduction. Donations that help to contribute to the community in contributors reside.

The United Way assists persons who are struggling with financial difficulties as providing oil for their heating costs, unable to pay rent that will result in eviction, or for those unable to purchase a new oil tank. Assisting those in need during extreme circumstances is possible through community donations at the local level.

Toll-Free: 1-800-263-8068 (In Canada Only)

E-mail: chhanational@chha.ca

For individuals who are hard of hearing, access to Assistive devices can be difficult. There are various programs in place through the government of Canada that aid in the funding of these devices. Eligibility varies from program to program and some are more accessible than others for certain individuals. It is important to research all potential avenues to ensure every possible source of assistance has been explored before assuming devices must be paid for out of pocket.

ONTARIO (UPDATED FALL 2009)

Children & Adults: Hearing aids and FM systems must be purchased from a vendor registered with the Assistive Devices Program (ADP). ADP will reimburse eligible Ontarians 75% of the cost, including dispensing fee, ear molds and accessories, to a maximum of: \$500 of the cost of one hearing aid, \$1,000 for two hearing aids, and \$1,350 of the cost of an FM system. The ADP requires prior authorization for FM systems for adults. The audiologist authorizer must send a written request to ADP for prior authorization before any FM system is dispensed to an adult.

New hearing aid(s) can be obtained after 3 years (if necessary).

BAHA: the ADP will not provide funding for the initial processor but will fund toward a replacement BAHA processor. The ADP pays the vendor 75 per cent of the manufacturer/distributor invoice price in Canadian dollars, up to a maximum of \$2625 for the sound processor or 75 per cent up to a maximum of \$3366.75 for the sound processor with abutment. For people who are receiving benefits from any one of the following: Assistance to Children with Severe Disabilities, Ontario Disability Support Program or Ontario Works at the time the sound processor is authorized, ADP will pay the vendor up to \$3500 toward the sound processor or up to \$4489 toward the sound

processor with abutment. Ask the vendor for more details. *Compiled by: The Canadian Hard of Hearing Association*

CANADIAN HEARING AID SUBSIDIES 7

CI Replacement Speech Processor: ADP pays the health centre 75 per cent of the manufacturer's invoiced price in Canadian dollars, up to a maximum of \$5,444

For people who are receiving benefits from any one of the following:

Assistance to Children with Severe Disabilities

Ontario Disability Support Program or Ontario Works at the time the processor is authorized; ADP will pay the health centre up to \$7,258.67 in Canadian dollars toward the speech processor. They can also receive fully subsidized hearing aids and Baha as well as the initial costs of ear molds and batteries Ontario Ministry of Health and Long-Term Care <http://www.health.gov.on.ca/>

Text 911:

As the service becomes available in different municipalities, Canadians with hearing loss or speech impairments must register their mobile phone number with their wireless service provider, and ensure that they have a compatible mobile phone. In the event of an emergency, they must first dial 911, and the emergency call centre will automatically receive notification to initiate a conversation by text message.

- This service will only be available in Canada.

ABI System Navigation

Crystal McCollom, M.E.S., BScN, RN, CDE, Regional ABI System Navigator
cmcollom@marchofdimes.ca

Definition: An Acquired Brain Injury is damage to the brain, which may be traumatically caused, for example, from an external force such as a collision, fall, or assault. Or through a medical problem or disease process which causes damage to the brain, for example, anoxia, non-progressive tumor, aneurysm, infection, and stroke with diffuse cognitive deficits. An ABI occurs after birth is not related to a congenital disorder or developmental disability, for example, cerebral palsy, muscular dystrophy, autism, spina bifida with hydrocephalus. A process which progressively damages the brain, for example, dementing processes multiple sclerosis, Alzheimer's disease, and Parkinson's disease.

Crystal McCollom:

Provides information and assistance for:

What is Acquired Brain Injury?, What is Traumatic Brain Injury?, Understanding the Brain and its Anatomy: Brain Basics, Brain Stem Damage, Cerebellum Damage, Frontal Lobe Damage, Parietal Lobe Damage, Occipital Lobe Damage, and Temporal Lobe Damage.

Recognizing ABI/ TBI: people with ABI/ TBI have trouble with short-term memory, planning/ problem solving, initiative, flexibility, insight, confabulating, perseveration, impulsiveness, language disorders, loss of self-image. Judgment, concentration, processing new information, distraction, sequencing, and sensory overload, reading and writing...and,

Poor Balance/gait, endurance, fatigue, speech, headaches, photosensitivity, seizures, slower reactions, lack of coordination, poor endurance, weakness, or paralysis, visual perception, loss and visual neglect, and sexually inappropriateness. Other problems with shopping for food, cooking, staying away from drugs and alcohol, anxiety and depression, pain, taking medications correctly, waiting, and regulating their emotional response are problems recognized with ABI/ TBI.

The brain is divided into lobes that serve various functions and damage to an area will affect specific functions: different types of ABI will result in different deficits; injuries are mild, moderate, or severe. Deficits include cognitive, physical, emotional, psychosocial, behavioural, and communication.

Challenges after ABI:

Physical: Motor, vision, audition, olfaction, hypersensitivity, seizure, Headache/ Energy Level; Mental: Attention/ Memory, Language/ Communication, Visual-spatial, problem solving, initiation; Emotional: Irritability/ lability, depression, denial, paranoia, anxiety; Psychosocial: Isolation, dependence, status change, sexual adjustment, drug and alcohol use.

Annual incidence of acquired brain injury is greater than multiple sclerosis, spinal cord injuries, Alzheimer, HIV/AIDS and Breast Cancers combined. The OBIA impact report 2012 includes percentages as bicycle crash 3%, pedestrian struck by motor vehicle 7%, Illness affecting the brain 17%, Anoxia 2%, Motorcycle Collision 3%, Recreational Vehicle 2%, fall 12%, victim of assault 3%, other 11%. Prescribed narcotics are also related to ABI.

Ontario Neurotrauma Foundation ABI data set for NE LHIN includes TBI incidence of 2.3 %, ABI incidence 1.6% and percent of inpatient Rehab assistance at 7.9% that is the highest in the NE LHIN without a lot of access to rehabilitation. NE LHIN residents had the 3rd lowest rate of admission to inpatient rehabilitation in the province. The admission rates for NE LHIN residents were lower than the provincial rates for all age groups. The Ontario Road Safety Annual Report 2010 includes for Algoma: the highest percent of injured persons that is 35.8%, and 0.6 % persons killed in Algoma.

Rotary Club of Wawa

<http://www.wawarotaryclub.ca/>

<https://www.facebook.com/RotaryClubofWawa>

Phone:

Meetings held at Wednesdays at 18:10, Embassy Restaurant, 70 Broadway Avenue, Wawa, ON

Since it's chartering on May 1st, 1961, The Rotary Club of Wawa has held fundraising efforts to support various projects. Many people wonder just what these projects are that the Rotarians support. Here are some graphs that display where the funding goes now. We can say with certainty that 78% (\$23,923) of funds raised by Wawa resident's remains in Wawa. (71% funds youth projects - Scouts, Guides, Sight & Sound to name a few. 7% funds projects that benefit the entire community of Wawa - Wawa Food Bank, CNIB Eye Van, LDHC, etc.) The balance of 22% or \$6,703 goes to World Community

Service.

Telephone calls are answered by the third ring. During periods of higher than normal call volumes, calls are placed into a queue and answered in order.

Voice mail messages will be returned within one business day (24 hours).

Correspondence (mail, fax) will be responded to within fifteen (15) business days from the date of receipt.

Medical Appeals Committee Care of:

Northern Health Programs

159 Cedar Street, Suite 402
Sudbury, ON P3E 6A5
705 564-7280 1 866 727-9959

OHIP: Northern Health Travel Grants (NHTG), if you qualify; are funded by the Ministry of Health and Long-Term Care.

Please Consider Telemedicine Instead of Travel: A telemedicine appointment with Ontario Telemedicine Network is just like an in-person visit; only the physician uses a monitor, allowing you to avoid the growing costs and challenges associated with long distance travel. Ask your health care provider if videoconferencing is right for you.

How the grant program works? If you qualify, your grant will be based on the distance you travel: at least 100 kilometres (km) one-way road distance to access a medical specialist or approved health care facility services that are not available locally.

What costs does the NHTG program help pay? Travel: Approved travel grants are paid at 41 cents per kilometre based on return road distance travel between your area of residence and the location of the nearest medical specialist, or approved health care facility that can provide the service. There is a deductible of 100 kilometres on your trip.

Accommodation Allowance: The NHTG Program also offers an accommodation allowance of \$100.00 per eligible trip to patients whose: one-way road distance to the closest specialist or approved health care facility that are able to provide the required services (e.g. hospital for Magnetic Resonance Imaging (MRI)) is at least 200 kilometres. You must submit an accommodation receipt in your name to prove you paid an accommodation expense. For a child under 16 years of age, an accommodation allowance receipt can be in the name of his/her parent/guardian. **Note: you can apply for only one travel grant and one accommodation allowance for each round trip you take for medical treatment. The grants do not pay all of your expenses, such as meals.**

www.rmhsouthwesternontario.ca

Phone: 519-685-3232

A special fund was made available to help families pay for hotel accommodation when there's no room for them at the House. Families who do stay are asked to pay only \$10 a night, though no family is ever turned away due to an inability to pay.

11 full time and part time staff and a pool of over 1,000 volunteers see to it that the children and families who stay have the comforts they want and the support they need. They organize and make home-cooked meals for everyone and keep the House stocked and clean. They take care of all the small things so parents can focus on what's most important – their child.

E-mail: info@rmhtoronto.org

Fax: 416-977-8807

Fees: Our room rate is \$15 per family, per night. A family is defined as up to two adults and their children. Payment is made weekly, unless written authorization has been received to bill another party for your stay.

Wait list: Rooms cannot be booked in advance. If rooms are unavailable at the time of your referral, you will be placed on a wait list and asked to continue calling daily to identify when a room becomes available.

STEP 1: Call us at 416-977-0458 to ensure you qualify to stay with us.

STEP 2: Contact the hospital to ensure that a referral is made on your behalf.

STEP 3: Make alternate arrangements. We cannot guarantee that a room will be available upon your arrival to Toronto. If calling one of the following area hotels, explain that you are travelling to pursue hospital care and inquire if they have a discounted hospital rate.

Alternative Arrangements

- Courtyard Marriott: 475 Yonge Street, (416) 924-0611
- Delta Chelsea: 33 Gerrard Street West, (416) 595-1975

STEP 4: Call us at 416-977-0458 the day before you arrive to begin checking for room availability.

STEP 5: Continue calling daily at 416-977-0458 to check on room availability.

Because someone on our wait list may return home or settle elsewhere without notifying us, it is essential that you continue to call daily in order to remain on our wait list.

Repeat visits: When a child is returning for continuing medical care for the same condition, a referral needs to be made through the hospital social worker.

Rotel is a 50-room, non-profit motel facility serving patients and families using Ottawa area hospitals. Rotel has been designed to keep patients and their loved ones in close touch and to ease the stress on the lives of outpatients. It is conveniently located on Smyth Road, close to the General Campus of TOH, the Rehabilitation Centre and adjacent to the Children's Hospital of Eastern Ontario and the Ottawa Children's Treatment Centre.

[Rotel offers modern, non-smoking designated rooms](#) with private bathrooms, some of which are specially equipped for the disabled. Each room is equipped with a refrigerator, a telephone and cable television. A common lounge with microwave and coffee machine, as well as laundry facilities are shared by guests. A play structure for the children, free parking and easy access to all [bus routes](#) are all part of the reason families choose to stay at Rotel.

For more information or to make reservations, please call 613-733-1412 within the Ottawa area or dial the toll-free number 1-800-267-4700. Details about rates and how to find Rotel can also be found on Rotel's web site: <http://www.rotel.ca> or by sending an email to: rotel@magma.ca.
